

## About Quayside

Waterfront Toronto selected Sidewalk Labs through a competitive process to design a new kind of complete community on Quayside that will serve as a model for sustainable and resilient neighborhoods throughout Toronto and cities around the world. The Quayside project, also referred to as the Sidewalk Toronto project, has an ambition to address the toughest challenges facing cities – and meaningfully improve quality of life – through the combination of forward-thinking urban design and innovative technology.

## Public Roundtable

On December 8, 2018, Waterfront Toronto is hosting a public roundtable at which Sidewalk Labs will present its current thinking on the Quayside project for feedback. During this roundtable, you will learn details being considered for the draft Master Innovation and Development Plan for Quayside and have the chance to contribute and discuss your ideas.

We invite you to complete this workbook and leave it with us today or email it back to us by December 21 at 5:00 p.m. This workbook is also available online to participants watching the livestream or the recorded breakout sessions to provide their feedback to the project team.

All comments received will be included in the Summary Feedback Report.

## Livestream

The livestream of the plenary presentation and Q&A will be available on the **YouTube** and **Facebook** channels of both **Waterfront Toronto** and **Sidewalk Toronto**. The recordings of each breakout room will be available on YouTube 24 hours after the meeting ends.
